

de Jean-Michel Gérez
à EVOLEN

objet : réponse à appel à candidature dans le 3^{ème} collège

Courbevoie, le 13 mai 2019

J'ai 69 ans et je travaille depuis 1975 dans l'industrie et particulièrement dans l'industrie parapétrolière (Coflexip-Canal-Historique et TechnipFMC).
Quelques escapades : IFP, Plastic Omnium et 10 années à la direction d'une chaudronnerie de 40 personnes spécialisée dans la construction pétrolière (dépôts, citernes fixes et roulantes).

Dans quelques mois je vais devoir quitter mon activité mais je souhaite pouvoir continuer à faire profiter de mon expérience l'industrie de l'énergie au travers des actions d'EVOLEN.

Je propose donc ma candidature comme administrateur Collège 3 à la prochaine élection.

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.

Jean-Michel Gérez.

Subject: nomination letter

Dear Jean-Michel Gerez,

The Experts Network was established in 2001. Its function is to recognize the role of those who, thanks to their competence, bring an outstanding contribution to the development of our technological image, both internally and externally. The College of Experts coordinates the activities of the Network and one of its objectives is, every year, to make recommendations for the appointment of new experts.

I am pleased to inform you that, following the proposal of the College, the Group Executive Committee has decided to appoint you to the Experts Network with the grade of Expert, as an acknowledgement for the quality of your contribution to our technologies.

You will find the Code of Expertise which describes the role of the Experts within the Group following that link: <http://tpnet-group.tpnet.intra/AboutTechnip/experts/Pages/default.aspx>

One member of the College will soon contact you to give you additional information.

The members of the College and myself are happy to welcome you to the Experts Network.

Sincerely yours,

Thierry Pilenko
